# What I wish to cover at Traders Carnival ?

- **The Art of Option Adjustment:**

Adjustment is an art in which you shift or change our positions according to changing market conditions.

- **Busting Common Option Strategies Myths:**

There are a lot of misconception regarding some option strategies and we will bust them for you.

## Key Takeaways From The Art of Option Adjustment

- Market is dynamic in nature so your trading setup cannot be static and as a trader we are most afraid of losses and exiting profitable trade way too early but the art of option adjustment help us overcome these fears.
- Learning Option adjustment methods like Reverse Buying which can help in reducing losses or eliminating loss altogether.
- Learning the Famous Ironfly strategy and we will try to answer some important questions related to the strategy like
  - a) When to deploy Ironfly?
  - b) Where to deploy Ironfly?
  - c) How to deploy Ironfly?with some examples and some its amazing adjustment strategies.
- Learning The Wonderful Debit Spread strategy with some examples and some of its amazing adjustment strategies.
